Introduction

Workplace Safety &
Insurance Board

Commission de la sécurité
professionnelle et de l'assurance
contre les accidents du travail

INTRODUCTION

a. 2007 Premium Rates Summary

In September 2006, the Board of Directors of the Workplace Safety and Insurance Board (WSIB) approved the 2007 average premium rate for Schedule 1* employers at \$2.26 for every \$100 of insurable earnings. The rate is unchanged from the 2006 average premium rate.

The WSIB is committed to working with employers and workers to ensure that the workplace safety and insurance system is responsive to their needs and financially sustainable. The decision to keep the average premium rate at its current level came after careful financial analysis and many meetings and discussions with employers, workers and their representatives. The WSIB Board of Directors appreciates this input and acknowledges the effort by employers and workers to make workplaces safer and to reduce the human burden when workplace injuries occur. Significant gains have been achieved, but we must do more. By working together to improve prevention and return to work outcomes, we can reduce the financial pressures on Ontario's workplace safety and insurance system.

In July 2006, the Board of Directors approved the preliminary 2007 premium rates. This was followed in August and early September by technical information sessions with employers in the rate groups receiving the largest increases. The WSIB held these meetings to receive feedback on the preliminary premium rate decision and to facilitate employer business planning for 2007.

With the approval of the 2007 average rate in September, final rate group premium rates were set for employers based on their business activity – taking into account various factors such as injury frequency and average cost per claim for each of the 157 rate groups. The average premium rate decision is consistent with the principles of the WSIB's Funding Framework.

* Schedule 1 average premium rate is a weighted average that is determined based on actuarial principles. It represents the average rate paid to the WSIB in a given year by registered employers for every \$100 of insurable earnings. The 157 rate group premium rates may be higher or lower than this average.

The WSIB's decision to hold the line on the average premium rate assumes that significant progress will continue on key issues of concern to Ontario's employers and workers – such as safer workplaces, and improved return to work outcomes for injured workers.

Unsafe workplaces lead to more injuries and illnesses, and return to work delays mean higher claims costs. These, in turn, create pressure to increase premium rates. There are many things employers can do to help lower their premium rates. Ontario workplaces can help to mitigate the effects of rising claim costs and other financial pressures on premium rates through improvements in workplace health and safety, and return to work programs.

Employers are encouraged to contact their WSIB Account Manager or Customer Service Representative for more information about making their workplaces healthier and safer, and about implementing effective return to work programs.

b. The Role of the Workplace Safety and Insurance Board (WSIB)

The WSIB plays a key role in the province's occupational health and safety system. The WSIB administers no-fault workplace insurance for employers and their workers and is committed to the prevention of workplace injuries and illnesses and the facilitation of effective return to work practices. The WSIB provides disability benefits when workplace injuries or illnesses occur, facilitates the provision of quality healthcare, and assists in early and safe return to work for workers.

The WSIB is a statutory corporation created by an Act of the Ontario Legislature in 1914. The WSIB is responsible for administering the *Workplace Safety and Insurance Act, 1997 (WSIA)*.

The WSIB receives no government funding. The WSIB premium revenue must cover all costs associated with both new and existing claims. Revenue is also raised through returns on invested assets.

Employers covered by the *WSIA*, are divided into two groups, referred to as "Schedule 1" and "Schedule 2." Schedule 1 employers are insured under a "collective liability" system, and are required to contribute to the WSIB Insurance Fund. Schedule 2 employers are "self-insured," and are individually liable for the full costs of their workers' WSIB claims. The WSIB pays insurance benefits for Schedule 2 workers and is

reimbursed by Schedule 2 employers for costs (including administrative costs) of the claims.

This *Premium Rates Manual* pertains to Schedule 1 employers only.

c. Funding Framework

The WSIB's Funding Framework provides a planned and disciplined approach to managing the risks and uncertainties that may result from financial pressures on the workplace safety and insurance system. This helps the WSIB to set stable and predictable premium rates while ensuring the financial sustainability of the system.

Currently the WSIB has an unfunded liability, which means that assets are not sufficient to fund the full life of all claims currently in the system. Paying down the unfunded liability is essential to the long-term financial stability of the system. We must ensure that today's debt is not passed on to future generations of employers and workers. Consequently, the WSIB Funding Framework reaffirms the WSIB's commitment to the elimination of the unfunded liability as a key funding principle.

The Funding Framework describes the WSIB's key funding principles :

- Collective liability
- Equity among generations of employers and workers
- Financial prudence and sustainability
- Stable and predictable premium rates
- Retirement of the unfunded liability
- Ease of administration, communication and understanding

With respect to stable and predictable premium rates, for example, the Funding Framework sets out rules for premium rate increases:

- The average premium rate will not increase in any year by more than 3% to 5%.
- At the rate group level, premium rates will not increase by more than 10% over the average rate change for 95% of all rate groups. For example, this means that a 0% increase in the average premium rate would translate into a maximum increase of not more than 10% (i.e. 0% plus 10%) for 149 (i.e., 95% of 157) of the rate groups. Although rate group premium rates continue to increase or decrease depending on the changing experience of individual rate groups, this rule provides a measure of premium rate stability for most employers.

To view the WSIB's Funding Framework, please visit the WSIB website at www.wsib.on.ca.

d. Derivation of the 2007 Premium Rates

The Schedule 1 costs of the workers' compensation system are funded through premium rates, which are applied to the payroll of Schedule 1 employers. All Schedule 1 employers are not charged the same rate. Rather, for the purpose of charging them on a more equitable basis, employers are classified into rate groups. Rate groups are defined in a classification scheme and each rate group has a different premium rate, reflecting the inherent risk of the specific business activities of industries insured within that group.

The classification scheme divides the services and business activities into nine broad classes, which are further subdivided into 157 rate groups based on similarity of business activities and relative risk. The number of rate groups has not changed for 2007. More information about changes to the WSIB classification scheme can be found in Section 8 of this manual. Additional details about the classification scheme itself can be obtained from the WSIB's *Employer Classification Manual* located on the WSIB's website.

For each of the classes and rate groups defined in the classification scheme, the WSIB prospectively derives a premium rate to cover costs relating to the upcoming 2007 premium year. These costs include:

- a) The expected lifetime future costs to pay benefits and claims-related administrative expenses associated with all new claims for the premium year;
- b) The WSIB's administrative expenses, accident prevention costs and other statutory obligations for the premium year;
- c) The charge to retire the WSIB's unfunded liability in accordance with the WSIB's Funding Framework; and
- d) The gains and losses component, which takes into account the actual claims cost experience of a class, as compared to what was originally priced in specific accident years. For the 2007 premium rates, the gains and losses component reflects actual experience in accident years 2001 through 2005.

Premium rates are determined annually and are expressed as a dollar amount per \$100 of insurable earnings.

The nine broad industry classes play a significant role in rate setting, because the class level is where certain cost items are projected using data and assumptions particular to each class. After the class estimates have been determined, corresponding estimates are derived for the rate groups of each class. The 2007 premium rates are based on claims experience and insurable earnings data from the most recent five years – that is, for the period from 2001 through 2005 inclusive.

There are many assumptions used when determining premium rates for the classes, including assumptions that relate to the economy. For instance, changes in the level of employment and earnings of a class are two factors that can influence the insurable earnings estimate for that class. The WSIB bases its assumptions of future insurable earnings on information received from Informetrica[†] that is specific to the sectors covered by the WSIA and modified with input from WSIB service directors.

[†] Informetrica is a privately-owned Canadian company specializing in quantitative economic research. Its products and services provide comprehensive coverage of Canadian economic prospects and public policy.

The class-by-class economic assumptions from the WSIB's forecast are shown below.

Economic Assumptions Supporting the 2007 Premium Rates				
Class	Earnings Growth 2005-2006	Earnings Growth 2006-2007	Employment Growth 2005-2006	Employment Growth 2006-2007
Class A: Forest Products	-0.26%	2.81%	1.18%	1.00%
Class B: Mining and Related Industries	0.93%	1.00%	2.20%	3.00%
Class C: Other Primary Industries	2.80%	4.10%	-0.60%	0.10%
Class D: Manufacturing	0.48%	3.04%	2.41%	2.00%
Class E: Transportation and Storage	1.58%	3.21%	1.60%	0.10%
Class F: Retail and Wholesale Trades	2.49%	2.12%	0.81%	1.46%
Class G: Construction	1.83%	2.80%	1.50%	-0.10%
Class H: Government and Related Services	1.90%	3.22%	0.58%	2.01%
Class I: Other Services	1.92%	2.23%	1.56%	2.17%
Schedule 1	1.56%	2.70%	1.45%	1.69%

e. Classification Scheme and Data Sources

As mentioned previously, Schedule 1 employers are divided into nine classes (denoted by class codes A through I). Employers within each class are then subdivided into rate groups. The grouping of employers within a single rate group is based on similarity of business activities and/or relative risk. The number of rate groups in each class varies according to the size of the class. For example, Class B *Mining and Related Industries* contains four rate groups, whereas Class D *Manufacturing* contains 76 rate groups.

Rate groups are further divided into classification units. Classification units are used as a means of tracking the relative experience of various employer subgroups. Firms in a classification unit share similar business activities or relative risk. All employers within

a single rate group, no matter which classification unit they belong to, are charged the same premium rate (before any merit adjustments or experience rating).

The classes referred to in this manual should not be confused with industry sectors, which is another categorization often applied to compare common business practices and approaches.

The figures shown in the Supporting Documentation sections of this manual are based on the data available as of the spring of 2006. Employers may obtain more recent information by contacting the WSIB (see Section 11 of this manual for contact information).

Rates **MANUAL**

SECTION 2

*Definition of 2007
Premium Rate Components*

**DEFINITION OF
2007 PREMIUM RATE COMPONENTS**

A. New Claims Cost

- | | | |
|----|-----------------------|---|
| 1. | Gross New Claims Cost | The estimated cost of new claims for accidents expected to occur during 2007 |
| 2. | SIEF | |
| | a. Relief | The portion of Gross New Claims Cost charged to the Second Injury and Enhancement Fund (SIEF) due to accident costs associated with second injuries |
| | b. Transfer Charge | Contribution to provide for SIEF relief |
| 3. | Net New Claims Cost | Gross New Claims Cost less SIEF relieved costs plus transfer charge levied to fund SIEF |

B. Overhead Expenses

- | | | |
|----|-------------------------|---|
| 1. | Administrative Expenses | Operating expenses of the WSIB estimated for the year 2007 |
| 2. | Legislative Obligations | Expenses the WSIB is required to fund under the <i>Occupational Health and Safety Act</i> and the <i>Workplace Safety and Insurance Act</i> |
| 3. | Accident Prevention | Expenses for the Safe Workplace Associations (SWAs) estimated for 2007 |
| 4. | Total Overhead Expenses | Total of Administrative, Legislative Obligations, and Accident Prevention expenses |

- | | |
|------------------------------|---|
| C. Unfunded Liability | Payment required to retire the unfunded liability (UL) according to the funding strategy of the WSIB |
| D. (Gain)/Loss | Adjustment reflecting the difference in actual vs. expected claims cost experience for accident years 2001 through 2005 |
| E. Premium Rate | Total cost per \$100 of insurable earnings required to fund new claims, overhead, (gain)/loss, and unfunded liability |

WSIB **2007**
Premium
Rates **MANUAL**

SECTION 3

Summary of Allocation Rules

SUMMARY OF ALLOCATION RULES FOR 2007 PREMIUM RATES

A. New Claims Cost

Gross new claims costs are determined at the class level. However, rate groups belonging to a class pay them.

The share of the class gross new claims cost charged to a member rate group is based on the number of Lost Time Injuries (LTIs), the average cost of an LTI expected for that rate group and a loading for future claims administrative expenses of new claims for the premium year.

The average cost of an LTI for a rate group is determined via a Cost Index, which indicates the relative costliness of an average LTI of the rate group as compared to that of its class.

Net new claims cost is the gross cost adjusted for expected relief and transfer charge for the Second Injury and Enhancement Fund (SIEF).

B. Overhead Expenses

Overhead expenses are allocated to rate groups in proportion to their net new claims cost and insurable earnings.

A rate group is granted overhead relief if its allocated overhead charge exceeds a set percentage of its net new claims cost.

Rate groups covered by a particular Safe Workplace Association (SWA) pay a share of the expenses of that SWA.

Overhead expenses for classes are the sum of expenses for member rate groups.

C. Unfunded Liability

The Unfunded Liability (UL) charge is determined for Schedule 1 as a collective whole. However, rate groups pay it.

The share of the UL charge paid by rate groups is in proportion to their net new claims cost.

The UL charge for a class is the sum of the UL charges for member rate groups.

D. (Gain)/Loss

Gains and losses are determined at the class level and spread over a period of five years. If the actual claims cost experience of a class was better than its expected experience then a gain is generated for that class. Conversely, when the actual experience was worse than expected, there is a loss. For the 2007 premium rates, gains and losses are based on accident years 2001 through 2005.

A gain results in a reduction in premium rates while a loss results in an increase.

The gain or loss of a class is allocated to its rate groups in proportion to their net new claims cost.

SECTION 8

Classification Scheme Changes

2007 CLASSIFICATION SCHEME CHANGES

The Workplace Safety and Insurance Board (WSIB) reviews the classification scheme each year. For 2007, no rate groups are being added or removed but some changes are being implemented. For example, in the Construction class one CU has moved.

These changes are summarized in the table below.

SUMMARY OF CLASSIFICATION SCHEME CHANGES FOR 2007			
The following Classification Units (CUs) ...		Will appear as follows in 2007	
2006 Rate Group	Description	2007 Rate Group	Description
748	4211-002 Non-Structural Interior Demolition	723	4211-002 Non-Structural Interior Demolition
301	2445-000 Clothing Contractors	301	2445-000 Clothing Contractors and Embroidery Operations
858	8622-000 Homes for the Physically Challenged and/or Disabled	858	8622-000 Homes for Persons with a Physical Disability
858	8623-000 Homes for the Developmentally Handicapped	858	8623-000 Homes for Persons with a Developmental Disability
858	8624-000 Homes for the Mentally Handicapped/Disabled	858	8624-000 Homes for Persons with a Mental Health Disability
958	4592-003 Freight Brokers	958	4592-003 Freight Brokers/Forwarders (Ground Freight)

As these classification unit changes do not affect how many rate groups there are, the number of rate groups in the WSIB's classification scheme remains at 157.

Premium
Rates **MANUAL**

SECTION 9

Non-Credible Rate Groups

NON-CREDIBLE RATE GROUPS

Ideally, each rate group defined in the Workplace Safety and Insurance Board's classification scheme should be credible, that is, large enough so that reasonably reliable estimates can be made for deriving premium rates from a rate group's own claims experience. Although this is generally the case, particular industries or services in Ontario can decline substantially as the economy undergoes changes and this can lead to a situation where a previously credible rate group becomes non-credible. In addition, some rate groups have reduced the number of injuries to a level where there is not enough information available to estimate the average cost of a claim and, as a result, the rate group becomes non-credible. As part of the ongoing activity of rate making, the Workplace Safety and Insurance Board (WSIB) monitors the credibility of rate groups.

When the WSIB is concerned that a particular rate group has become non-credible, and is likely to remain non-credible, the WSIB may decide to remove such a rate group from the classification scheme through some form of rate group merger, as of a specified date. Employers in the affected industries or services would continue to be insured, but under another rate group.

Since the original development of the WSIB's current classification scheme, which was introduced in 1993, a number of rate groups have become non-credible. Different approaches have been used to address the issue of non-credibility, depending on the circumstances of each rate group.

Data supporting the 2007 premium rates shows that under current criteria eleven rate groups are not fully credible. However, these rate groups have been treated as though they are credible for the 2007 premium rates.

It is possible that the experience of some of the non-credible rate groups may naturally return to a fully credible level, eliminating the need for additional review. However, it is expected that for some of these rate groups, the lack of credibility would need to be addressed more formally by the WSIB, possibly through reclassifications or rate group mergers.
