Introduction

Workplace Safety &
Insurance Board

Commission de la sécurité
professionnelle et de l'assurance
contre les accidents du travail

INTRODUCTION

a. 2010 Premium Rates Summary

In September 2009, the Board of Directors of the Workplace Safety and Insurance Board (WSIB) approved the 2010 premium rates.

The costs of running Ontario's workplace safety and insurance system have been impacted by recent increases to benefits, poor investment returns, and the current global financial crisis. The WSIB has had to take decisive action to maintain the financial sustainability of the system, while being fair to the workers and employers who rely on it.

For 2010, the WSIB followed its normal premium rate setting methodology as if the notional average premium rate were held at \$2.26 for every \$100 of insurable earnings – but with one important change. Premium rates were unchanged for rate groups with good health and safety performance, while rate increases for poor performing rate groups were calculated in the usual way.

The majority of employers – over 200,000 – will have their premium rates maintained at 2009 levels. 2010 will see a smaller number of employers – approximately 36,000 – facing rate increases compared to recent years, when approximately 90,000 employers per year experienced increases.

Health and safety is as important as ever in the current financial climate. The WSIB remains committed to the Road to Zero and the elimination of workplace injuries and illnesses. Investing in safety saves lives, and spares workers and their families the often devastating financial and emotional effects of workplace injuries.

Unsafe workplaces lead to more injuries and illnesses, and return to work delays mean higher claims costs. These, in turn, create pressure to increase premium rates. There are many things employers can do to help avoid premium rate increases. Ontario workplaces can help to mitigate the effects of rising claim costs and other financial pressures on premium rates through improvements in workplace health and safety, and return to work programs.

Employers are encouraged to contact WSIB representatives, especially their Disability Prevention Specialist, or their Health and Safety Association for more information about making their workplaces healthier and safer, and about implementing effective return to work programs.

b. The Role of the Workplace Safety and Insurance Board (WSIB)

The WSIB helps workers deal with the consequences of workplace injuries and illnesses – providing insurance benefits and helping them recover and return to work. The WSIB :

- Administers no-fault workplace insurance for employers and their workers
- Provides benefits for injured and ill workers, and benefits for dependants of workers who have died as a result of a workplace injury or illness
- Monitors the quality of health care
- Assists in early and safe return to work.

The WSIB plays a key role in Ontario's occupational health and safety system. Preventing workplace injuries, illnesses, and fatalities is an important part of our mandate. We are working to change society's attitudes and behaviours when it comes to staying safe on the job. Through community outreach and mass media, we are delivering the messages that "there really are no accidents" and "you can never be too safe." Every one of us can take steps to make a difference and make Ontario's workplaces the safest in the world.

The WSIB is a statutory corporation created by an Act of the Ontario Legislature in 1914. The WSIB is responsible for administering the *Workplace Safety and Insurance Act, 1997* (WSIA).

The WSIB receives no government funding. WSIB premium revenue must cover all costs associated with both new and existing claims. Revenue is also raised through returns on invested assets.

Employers covered by the WSIA, are divided into two groups, referred to as "Schedule 1" and "Schedule 2." Schedule 1 employers are insured under a "collective liability" system, and are required to contribute to the WSIB Insurance Fund. Schedule 2 employers are "self-insured," and are individually liable for the full costs of their workers' WSIB claims. The WSIB pays insurance benefits for Schedule 2 workers and is reimbursed by Schedule 2 employers for costs (including administrative costs) of the claims.

This *Premium Rates Manual* pertains to Schedule 1 employers only.

c. Funding Framework

The WSIB's *Funding Framework*, approved by the WSIB Board of Directors in April 2008, was established with significant input received from both worker and employer

stakeholders. It outlines the funding principles to help us manage the unfunded liability and the rate-setting process.

The WSIB's key funding principles are :

- Alignment with the WSIB's Five Year Strategic Plan 2008–2012, *The Road to Zero*
- Collective liability
- Inter-generational equity and fairness among employers, workers and the system
- Financial prudence and sustainability
- Premium rate and benefit stabilization
- Retirement of the unfunded liability

Funding principles are applied collectively as a complete and balanced whole, with no one principle taking precedence over another.

The *Funding Framework* provides a prudent and financially-responsible process for setting stable and predictable premium rates, while ensuring the long-term financial security of Ontario's workplace health and safety insurance system.

d. Derivation of the 2010 Premium Rates

The Schedule 1 costs of the workers' compensation system are funded through premium rates, which are applied to the payroll of Schedule 1 employers. All Schedule 1 employers are not charged the same rate. Rather, for the purpose of charging them on an equitable basis, employers are classified into rate groups. Rate groups are defined in a classification scheme and each rate group has a different premium rate, reflecting the inherent risk of the specific business activities of industries insured within that group.

The classification scheme divides business activities into nine broad classes, which are further subdivided into 154 rate groups based on similarity of business activity and relative risk. Due to statistical credibility, the number of rate groups has been reduced by one from 155 in 2009 to 154 for 2010. More information about changes to the WSIB classification scheme can be found in Section 8 of this manual. Additional details about the classification scheme itself can be obtained from the WSIB's *Employer Classification Manual* located at www.wsib.on.ca/wsib/wecm.nsf/home/ecmhome.

For each of the classes and rate groups defined in the classification scheme, the WSIB derives a premium rate to cover expected costs relating to the upcoming 2010 premium year. These costs include :

- a) The expected future lifetime costs to pay benefits and claims-related administrative expenses associated with all new claims for the premium year;
- b) The WSIB's administrative expenses, prevention costs and other statutory obligations for the premium year;
- c) The charge to retire the WSIB's unfunded liability in accordance with the WSIB's *Funding Framework*; and
- d) The gains and losses component, which takes into account the actual claims cost experience of a class, as compared to what was originally priced in specific injury years. For the 2010 premium rates, the gains and losses component reflects actual experience in injury years 2004 through 2008.

Premium rates are determined annually, but as noted above for 2010, rates for many rate groups were unchanged from 2009. Rates are expressed as a dollar amount per \$100 of insurable earnings.

An annual maximum ceiling for average earnings used for determining benefits and premiums is set each year according to the *Workplace Safety and Insurance Act*. The ceiling for the premium rate year (2010) is based on 175% of the average industrial wage for Ontario from the most recent published Statistics Canada earnings data available on July 1st of the previous year (2009). The 2010 maximum insurable earnings ceiling is \$77,600, an increase of 4.0% over the 2009 ceiling of \$74,600. More than half of the increase for 2010 resulted from a change in calculation methodology by Statistics Canada that improved the quality of the industrial wage data.

Although many rate groups had their 2010 premium rates remaining the same as in 2009, the nine industry classes play a significant role in rate setting. The class level is where certain costs are projected using data and assumptions particular to each class. After the class estimates have been determined, estimates are derived for the rate groups of each class. The 2010 premium rates are based on a projection of claims experience and insurable earnings data from the most recent five years – that is, for the period from 2004 through 2008 inclusive.

There are many assumptions used when determining premium rates for the classes, including assumptions that relate to the economy. For instance, changes in the level of employment and earnings of a class are two factors that can influence the insurable earnings estimate for the class. The WSIB bases its assumptions of future insurable

earnings on sector-specific information received from organizations such as Informetrica*, modified with input from WSIB Service Delivery and Revenue directors.

The WSIB's class-by-class forecast economic assumptions (as determined in March 2009) are shown below.

Economic Assumptions Supporting the 2010 Premium Rates				
Class	Earnings Growth 2008-2009	Earnings Growth 2009-2010	Employment Growth 2008-2009	Employment Growth 2009-2010
Class A: Forest Products	1.27%	2.96%	-7.41%	-5.25%
Class B: Mining and Related Industries	1.90%	4.00%	-7.40%	-0.20%
Class C: Other Primary Industries	2.40%	2.90%	-0.40%	0.10%
Class D: Manufacturing	0.92%	3.15%	-4.00%	-0.13%
Class E: Transportation and Storage	4.22%	2.40%	-2.40%	-0.10%
Class F: Retail and Wholesale Trades	2.17%	2.79%	-2.58%	0.14%
Class G: Construction	1.80%	3.60%	2.90%	1.10%
Class H: Government and Related Services	4.04%	2.53%	-0.71%	2.27%
Class I: Other Services	1.59%	2.89%	-1.89%	-0.04%
Schedule 1	2.22%	3.01%	-2.11%	0.39%

e. Classification Scheme and Data Sources

Schedule 1 employers are divided into nine classes (denoted by class codes A through I). Employers within each class are then subdivided into rate groups. The grouping of employers within a single rate group is based on similarity of business activities and/or relative risk. The number of rate groups in each class varies according to the size of the economic sector covered by each class. For example, Class B: Mining and Related Industries, contains four rate groups, whereas Class D: Manufacturing, contains 73 rate groups.

* Informetrica is a privately-owned Canadian company specializing in quantitative economic research. Its products and services provide comprehensive coverage of Canadian economic prospects and public policy.

Rate groups are further divided into classification units. Classification units are used as a means of tracking the relative experience of various employer subgroups. Firms in a classification unit share similar business activities, risks or other characteristics. All employers within a single rate group, no matter which classification unit they belong to, are charged the same premium rate (before any merit adjustments or experience rating).

The classes referred to in this manual should not be confused with industry sectors, which is another categorization used by the WSIB to compare common business practices and approaches.

The figures shown in the Supporting Documentation sections of this manual are based on the data available as of June 2009. Employers may obtain more recent information by contacting the WSIB (see Section 11 of this manual for contact information).

SECTION 2

*Definition of 2009
Premium Rate Components*

DEFINITION OF 2010 PREMIUM RATE COMPONENTS

A. New Claims Cost

- | | | |
|----|-----------------------|---|
| 1. | Gross New Claims Cost | The estimated cost of new claims for injuries expected to occur during 2010 |
| 2. | SIEF | |
| a. | Relief | The portion of Gross New Claims Cost charged to the Second Injury and Enhancement Fund (SIEF) due to injury costs associated with second injuries |
| b. | Transfer Charge | Contribution to provide for SIEF relief |
| 3. | Net New Claims Cost | Gross New Claims Cost less SIEF relieved costs plus transfer charge levied to fund SIEF |

B. Overhead Expenses

- | | | |
|----|-------------------------|---|
| 1. | Administrative Expenses | Operating expenses of the WSIB estimated for the year 2010 |
| 2. | Legislative Obligations | Expenses the WSIB is required to fund under the <i>Occupational Health and Safety Act</i> and the <i>Workplace Safety and Insurance Act</i> |
| 3. | Prevention | Expenses for the Safe Workplace Associations (SWAs) estimated for 2010 |
| 4. | Total Overhead Expenses | Total of Administrative, Legislative Obligations, and Prevention expenses |

- | | |
|------------------------------|---|
| C. Unfunded Liability | Payment required to retire the unfunded liability (UL) according to the funding strategy of the WSIB |
| D. (Gain)/Loss | Adjustment reflecting the difference in actual vs. expected claims cost experience for injury years 2004 through 2008 |
| E. Premium Rate | Total cost per \$100 of insurable earnings required to fund new claims, overhead, (gain)/loss, and unfunded liability |

WSIB **2010**
Premium
Rates **MANUAL**

SECTION 3

Summary of Allocation Rules

SUMMARY OF ALLOCATION RULES FOR 2010 PREMIUM RATES

A. New Claims Cost

Gross new claims costs are determined at the class level. However, rate groups belonging to a class pay them.

The share of the class gross new claims cost charged to a member rate group is based on the number of Lost Time Injuries (LTIs), the average cost of an LTI expected for that rate group and a loading for future claims administrative expenses of new claims for the premium year.

The average cost of an LTI for a rate group is determined via a Cost Index, which indicates the relative costliness of an average LTI of the rate group as compared to that of its class.

Net new claims cost is the gross cost adjusted for expected relief and transfer charge for the Second Injury and Enhancement Fund (SIEF).

B. Overhead Expenses

Overhead expenses are allocated to rate groups in proportion to their net new claims cost and insurable earnings.

A rate group is granted overhead relief if its allocated overhead charge exceeds a set percentage of its net new claims cost.

Rate groups covered by a particular Safe Workplace Association (SWA) pay a share of the expenses of that SWA.

Overhead expenses for classes are the sum of expenses for member rate groups.

C. Unfunded Liability

The Unfunded Liability (UL) charge is determined for Schedule 1 as a collective whole. However, rate groups pay it.

The share of the UL charge paid by rate groups is in proportion to their net new claims cost.

The UL charge for a class is the sum of the UL charges for member rate groups.

D. (Gain)/Loss

Gains and losses are determined at the class level and spread over a period of five years. If the actual claims cost experience of a class was better than its expected experience then a gain is generated for that class. Conversely, when the actual experience was worse than expected, there is a loss. For the 2010 premium rates, gains and losses are based on injury years 2004 through 2008.

A gain results in a reduction in premium rates while a loss results in an increase.

The gain or loss of a class is allocated to its rate groups in proportion to their net new claims cost.

Classification Scheme Changes

Workplace Safety &
Insurance Board

Commission de la sécurité
professionnelle et de l'assurance
contre les accidents du travail

2010 CLASSIFICATION SCHEME CHANGES

The Workplace Safety and Insurance Board (WSIB) reviews the classification scheme each year. For 2010, one rate group is being merged.

This change is summarized in the table below.

SUMMARY OF CLASSIFICATION SCHEME CHANGES FOR 2010			
The following Classification Units (CUs) ...		Will appear as follows in 2010	
2009 Rate Group	Description	2010 Rate Group	Description
237	Tires And Tubes	238	Other Rubber Products

The number of rate groups in the WSIB's classification scheme has been reduced from 155 to 154 in 2010. Additionally, for rate group 851 - Homes For Nursing Care, the description of CU 8621-001 is changed from "Nursing Home Operations" to "Long Term Care Home Operations". Otherwise, there are no other changes to the classification scheme for 2010.

Premium
Rates **MANUAL**

SECTION 9

Non-Credible Rate Groups

NON-CREDIBLE RATE GROUPS

Ideally, each rate group defined in the Workplace Safety and Insurance Board's classification scheme should be credible, that is, large enough so that reasonably reliable estimates can be made for deriving premium rates from a rate group's own claims experience. Although this is generally the case, particular industries or services in Ontario can decline substantially as the economy undergoes changes and this can lead to a situation where a previously credible rate group becomes non-credible. In addition, some rate groups have reduced the number of injuries to a level where there is not enough information available to estimate the average cost of a claim and, as a result, the rate group becomes non-credible. As part of the ongoing activity of rate making, the Workplace Safety and Insurance Board (WSIB) monitors the credibility of rate groups (RGs).

When the WSIB is concerned that a particular rate group has become non-credible, and is likely to remain non-credible, the WSIB may decide to remove such a rate group from the classification scheme through some form of rate group merger, as of a specified date. Employers in the affected industries or services would continue to be insured, but under another rate group.

Since the original development of the WSIB's current classification scheme, which was introduced in 1993, a number of rate groups have become non-credible. Different approaches have been used to address the issue of non-credibility, depending on the circumstances of each rate group.

Data supporting the 2010 premium rates shows that under current criteria five rate groups are not fully credible.

It is possible that the experience of some of the non-credible rate groups may return to a fully credible level, eliminating the need for additional review. However, it is expected that for some of these rate groups, the lack of credibility would need to be addressed more formally by the WSIB, possibly through reclassifications or rate group mergers.
